International Education School

INTRODUCTION OF CHANG'AN UNIVERSITY (INTERNATIONAL EDUCATION SCHOOL)

Directly under the administration of Ministry of Education, Chang'an University is one of the State "211 Project" key development universities, is a college accepting the students with Chinese government scholarship, and is also one of the earliest universities in western China recruiting the overseas students. It was merged by the former Xi'an Highway University, Xi'an Engineering Institute and Northwest Institute of Construction Engineering in April, 2000. Chang'an University has a quality teaching staff and has assembled a large number of well-known experts and scholars, including two academicians of Chinese Academy of Engineering, guest professors of the "Cheung Kong Scholars Program" and the tutors of Doctor, Master degree. At present, the university has more than 40,000 undergraduate and junior college students, and more than 3,000 doctoral and master postgraduates.

ENGLISH PROGRAM OVERVIEW INTERNATIONAL ECONOMICS AND TRADE

The target of this major is to train high-quality compound talents with international vision, who is supposed to have the basic theory and professional knowledge of economics, international financial and international trade, etc., meanwhile, be skilled in the use of modern methods and foreign language tools to engage in international finance, investment and trade practices, and other foreign-related economic activities. Students, after graduation, mainly work for the domestic large enterprise groups, foreign enterprises, the government departments, domestic and foreign financial institutions, insurance companies and securities companies. The graduates are also expected to go to famous universities at home and abroad for further study.

PROGRAM FOR MECHANICAL ENGINEERING

The goal of the Integrated Bachelor program in Mechanical Engineering is to provide students with a balance of intellectual and practical experiences that enable them to address a variety of societal needs. This program helps students to apply basic theories of engineering, physics, and materials science on the design, analysis, manufacturing, and maintenance of mechanical systems. The program at the undergraduate level prepares students for entry-level work as mechanical engineers, or for graduate study in engineering of in another discipline where a fundamental engineering background constitutes a desirable foundation.

PROGRAM OF CIVIL ENGINEERING

This program mainly introduces the educational planning of Chang' an University for the international undergraduate students majoring in civil engineering. It contains education objectives, specialty orientation, curriculum settings, and other related requirements. Particularly, the details of curriculum settings are displayed in the following paragraphs. International students can get very useful information from this program.

THE TABLE OF ENGLISH PROGRAMS

| ENGLISH PROGRAM | | |
|-----------------|--|--|
| LEVEL | SCHOOL | MAJOR |
| Undergraduate | School of Economics and Management | Bachelor of Business Administration(BBA) |
| Undergraduate | School of Economics and Management | International Economics and Trade |
| Undergraduate | Information Engineering School | Department of Electronic Information Engineering |
| Undergraduate | School of Construction Machinery | Mechanical Engineering |
| Undergraduate | School of Civil Engineering | Civil Engineering |
| Master | School of Economics and Management | Master of Business Administration(MBA) |
| Master | Institute of Architecture | Architecture |
| Master | School of Geological Engineering and Geomatics | Surveying and Mapping |
| Master | Information Engineering School | Information and Communication Engineering |
| Master | School of Civil Engineering | Structural Engineering |
| Master | Information Engineering School | Traffic Information Engineering and Control |
| Master | School of Economics and Management | Logistics Engineering and Management |
| Ph.D | School of Geological Engineering and Geomatics | Surveying and Mapping Science and Technology |
| Ph.D | Information Engineering School | Traffic Information Engineering and Control |
| Ph.D | School of Economics and Management | Logistics Engineering and Management |
| Ph.D | School of Civil Engineering | Structural Engineering |

HOW TO APPLY

QUALIFICATIONS FOR APPLICANT

The friendly people in all countries, healthy, above 18 years old, under 65 years old, has enough financial guarantee can apply for learning the Chinese language; the undergraduate course applicant should graduate from senior high school with excellent school marks, the applicant for Master degree must have the undergraduate course educational background and have acquired the B.A. degree, the Doctor degree applicant must have Master's educational background and have acquired the master degree, students choosing subjects with English as teaching language must have strong English language ability, the students choosing subjects with Chinese as teaching language must attain the HSK third level above.
